Consigned by Willer Timber Ridge

- Headlining the inaugural Elite Harvest Sale is the foundation and Pathfinder donor of the storied Willer Timber Ridge program, Miss Traveler 501. She clearly reflects the Performance and Carcass emphasis of Willer Timber Ridge program and the fertility and longevity of the Miss Traveler cow family at WTR. She offers a stacked pedigree and elite script of genetic tabulations that ranks at the top of the breed including the TOP 1% for WW, DOC, \$M & \$W; as well as the TOP 5% for YW!
- Miss Traveler 501 is a third generation donor in the WTR program. Her grandam 9403 is now 13 years old and still producing that is also a flushmate to the #2 get-of-sire at Midland Bull Test (MT).
- Miss Traveler 501 offers an impeccable production record that includes: BR 5@98, WR 5@116, YR 5@105, and RER 5@103. Her first daughter, '917', has had two calves with a WWR 108 and is well on her way to Pathfinder status!
- The cow family 'Miss Traveler': '501' is the 6th generation of the Miss Traveler cow family at WTR. She can be directly traced back to GT Evergreen 312, the Grandmother of GT Maximum, an icon of power in the Angus breed... the same cow family that Brian McCullough brought into the Woodhill Farm program and can be found in so many of the pedigrees of that great Angus program.
- WTR Miss Traveler 501 has been flushed 5 times for an average of 10 embryo per flush.
- She sells due 2/13/23 to the new Willer herd sire Mead R1867 Weigh Up V518!
